

Children weren't born to:  
walk  
stand in line  
wear designer clothes  
speak with inside & outside voices

*The stories, songs and rites that help a child cope with life's difficult times must be in their life long before the tragedy occurs.*

Socrates did not come to "group time!"

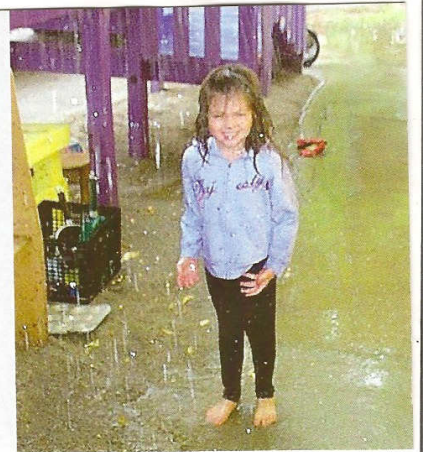

*“How  
does  
your  
story  
start?”*

If it hasn't been in  
the hand, the body  
and the heart --

-- it can't be  
in the brain.

Most  
adults  
have  
“childhood  
amnesia.”

Working hard

doing.
